(54) Title: AN EXTENDIBLE USER INPUT DEVICE

A

B

(57) Abstract: A portable electronic gaming device comprising: a user input device (10) comprising an extendible support (12) having at a first end a (13) tactile member (20) for user actuation and mounted at a second end (14) for pivotal movement, wherein the user input device has a first configuration (fig. 3A) in which the extendible support is retracted and second configuration in which the extendible support is extended (fig. 3B), wherein in the second configuration the user input device is operable as a joystick game controller or wherein the user input device functions as an input device in both first and second operational configurations.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
